Three Days of Industry Engagement

The **8th India International EV Show (IIEV)** was held from **2–4 October 2026 at the Auto Cluster Exhibition Centre, Pimpri-Chinchwad, Pune.** Organised by **Futurex Group,** the exhibition focused on **electric vehicles, EV components, charging infrastructure, mobility technologies and allied solutions.**

Held concurrently with the **India Battery International Show** and **India Solar International Show**, the event connected professionals from automotive manufacturing, engineering, infrastructure, energy technologies, distribution and institutional organisations. The concurrent format brought related technologies into one exhibition environment while maintaining the distinct identity of each show.

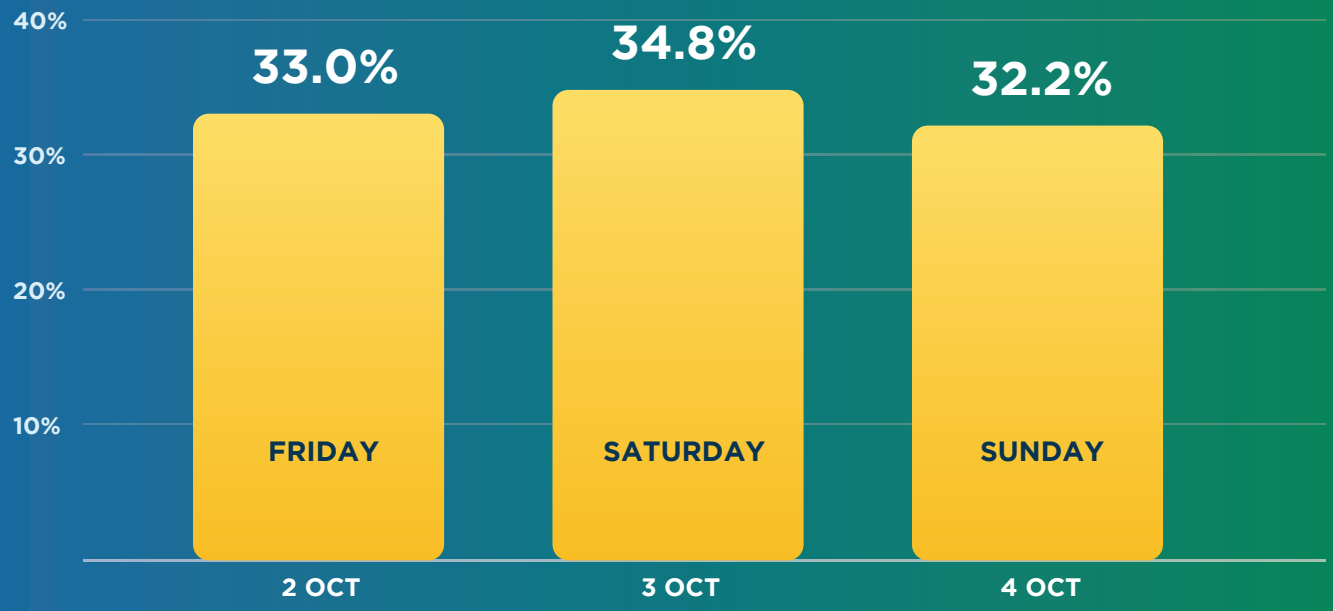

A Consistent Three-Day Visitor Flow

Visitor-entry records from the 2026 Pune event reflect activity across the three-day concurrent exhibition platform. The highest share was recorded on the second day, while each day accounted for approximately one-third of recorded entries.

Connecting Mobility, Energy & Technology Industries

Professional & Industry Backgrounds

The exhibitions brought together a diverse mix of professionals, manufacturers, technology providers and business leaders from across the EV, battery, energy storage, solar and allied industrial ecosystems.

- EV & Automotive Manufacturing
- Battery Manufacturing & Energy Storage
- Solar & Renewable Energy Solutions
- Charging Infrastructure & Power Electronics
- Engineering, Components & Technology
- Business, Distribution & Industry Leadership

Technologies & Innovations on Display

The **8th India International EV Show**, alongside the concurrent **India International Battery Show** and **India International Solar Show,** showcased products, technologies and solutions spanning electric mobility, advanced batteries, energy storage, solar power and supporting industrial infrastructure.

Electric Vehicles & E-Mobility
Electric two- and three-wheelers, passenger vehicles, commercial EVs and mobility solutions.

Batteries & Energy Storage
Battery cells, packs, BMS, energy storag systems and recycling technologies.

Solar & Renewable Energy
Solar PV modules, inverters, solar power systems and renewable energy solutions.

EV Charging Infrastructure
AC/DC chargers, charging stations, connectors and associated infrastructure.

Components & Power Electronics
Motors, controllers, power electronics, electrical components and powertrain technologies.

Manufacturing & Smart Technologies
Production equipment, automation, testing, R&D and advanced engineering solutions.

Turning Industry Encounters into Opportunities

A trade exhibition creates space for direct conversations that are difficult to replicate through catalogue or remote communication. Across the three days, the IIEV platform offered opportunities for product discovery, technical discussions, supplier exploration and business networking.

Product Discovery
Direct conversations about technologies, specifications and potential applications.

Supplier Engagement
Opportunities to assess products, compare solutions and explore sourcing requirements.

Distribution Networks
Interactions relevant to dealerships, regional channels and commercial expansion.

Engineering Collaboration
Conversations around components, integration and technical requirements.

Professional Networking
Face-to-face contact among manufacturing, mobility and industry professionals.
